I am a Creative Graphic & Website designer in Warrington. I like to think of myself as somewhat of a typographer and illustrator too. I design functional, multi-platformed and innovative websites as well as beautiful designs for print and web. I am friendly, hard-working and enjoy a challenge. I am proficient with a variety of design software and web standards.

Professional Experience

Creative Graphic/ Web Designer

EMS-Internet Ltd
July 2010 - Present

My current role at EMS Internet is extremely diverse and offers a wide range of work. I am solely tasked with the design of ALL company marketing materials. This includes the design and maintenance of all company websites, design of all print materials (flyers, posters, info packs, stickers, stationery etc.), email marketing campaigns, media publications, mobile websites, mobile and desktop landing pages and all in-house design too including the design of our company intranet. I also, on occasion, work on large VIP customer projects and for a period I was the sole Mobile Website designer for customers at EMS Media. I also design the user interface of mobile applications for clients of EMS Media and style/ design social media profiles.

Print Media Design Executive

Betfred Marketing
January 2008 - June 2010

During my time at Betfred I was responsible for all print adverts for press and print publications for the company. I created all adverts as well as overseeing the whole process right through from the conceptual stage to sourcing content and creating the artwork. I also assisted with the up-keep (content & design) of several company websites as well as designing various works for in store promotions (e.g. Window posters) and security & operations artwork.
